

BUILD BETTER, STRONGER HOMES WITH STÄRKE STEEL FRAMES

Stärke manufactures precision-made **Steel Frames** that enable builders to deliver a better, more durable & healthier home for their clients. Steel enables the highest quality finish, every time. Resistant to moisture penetration, mould growth and warping, and backed up with a 50 year durability warranty for ultimate peace of mind.

We also happen to design our **Steel Frames** to work seamlessly with **Stärke Windows & Doors**, reducing on-site costs and delivering faster build times. Tested up to and beyond New Zealand and Australian standards with superior strength and water performance, so you can enjoy the highest specifications without the high price tag. Learn why more builder's are choosing to build with Steel Frame.

STÄRKE FRAME

STEEL FRAMING FOR BUILDERS

WHY CHOOSE STÄRKE FRAME?

When it comes to building, structural integrity is everything. Traditional wooden materials are prone to warp, sag or shrink over time, hence increasing the risks of cracked walls, jammed doors and waving roof lines. Many builders are making the switch to Steel Framing – here are a few reasons why.

✔ Fast Installation Times

Time is money, and Stärke Frame is quick to erect, compliant & 100% accurate. Pre-punched service holes also make it easy for other trades to do their bit. We supply on time so your time is spent on construction rather than waiting on suppliers.

✔ Steel Frames Designed for Stärke Windows & Doors

Improve residential build times & reduce costs with Stärke windows & doors, designed to work seamlessly with Stärke Frame. Tested up to and beyond New Zealand and Australian standards, delivering increased strength & superior water performance.

✔ More Design Flexibility

Steel framing is the preferred for independent builders in custom architectural designs. The strength & spanning capabilities offer more design options to create open plan, cost effective spaces. It's also popular with nationwide building franchises too.

✔ Sustainability & Good Environmental Choice

Optimised engineering ensures Stärke Frame supports structural loads more effectively than timber, while using less material. It's 100% recyclable too, making it a good environmental choice for future generations.

✔ Strength & Durability from the Inside Out

Straight, true and resistant to deformation year after year, it's the construction benchmark for accuracy.

✔ No Shrinkage

The stability of steel framing during moisture changes means that it won't warp twist or crack. Say goodbye to cracked walls, cladding & door jams.

✔ Exceptional Warranties

In the building industry today, any product that comes with a 50 year warranty is a no-brainer. Choose steel.

✔ Benefits of Our Network

Enjoy the benefits of a genuine New Zealand business network – Stärke windows & doors, Formsteel commercial Buildings, FormClad® roofing, Formsteel high rise tray flooring, Structural IQ engineering team. Our network also includes Knight Group, one of New Zealand's largest contemporary office furniture wholesalers, for commercial projects needs.
